Subject: Second Time Extension Request, Pelican Point Rock Products, Pelican Point Quarry, M/049/011, Utah County, Utah

Dear Mr. Sather:

We received your letter dated December 19, 2003, requesting 60 additional days to submit updated maps of the Pelican Point Quarry facilities. Your letter states that you are still reviewing the most effective way to map the area. This is somewhat confusing, because in correspondence between Mr. Patrick Collins and Doug Jensen of my staff, Mr. Collins indicated that he could submit this map by December 19, 2003, if requested. Your letter states that no mapping effort can begin until you decide what the most effective way to map the area would be.

In August of 2003, we originally requested that a map for this area be prepared and submitted by October 20, 2003. You subsequently requested an additional 60 days to prepare and submit this map. We granted the extension because you stated that this map was to be submitted with an updated Notice of Intention (NOI) for this mine site. Over 120 days have now elapsed since our original map request was made.

A review of this permit also shows that the permit transfer from Larson Limestone to Pelican Rock Products has not been completed. The latest transfer document and Reclamation Contract (dated March 2002) have not been finalized. On September 4, 2003, we faxed copies of these latest documents to Lance Heaton indicating corrections that needed to be made. We have received no response from your company regarding these documents.

The transfer from Larson Limestone will be necessary before we can review an updated NOI under Pelican Point Rock Products. In April 2002, we received two riders from Fidelity and Deposit Company of Maryland which: 1) changed the Principal's name from Larson Limestone

Company to Pelican Point Rock Products, Inc., and 2) corrected the Obligee's name to the State of Utah, Department of Natural Resources, Division of Oil, Gas and Mining (formerly only Utah Department of Natural Resources).

Given these circumstances, we are prepared to grant another **30 days (until January 30, 2004)** to complete and submit the requested map(s). If you believe you still cannot meet this timeframe, we ask that you contact Vickie Southwick at (801) 538-5304 within the next 14 days to schedule a meeting with the Associate Director and Division Staff to discuss an acceptable timeframe to submit these documents.

If you have any questions or concerns regarding this letter, please contact Doug Jensen at (801) 538-5382. Thank you for your cooperation in this regard.

Sincerely,

D. Wayne Hedberg, Permit Supervisor
Minerals Regulatory Program
Utah Division of Oil, Gas and Mining
